PROFESSIONAL SUMMARY

Motivated and dedicated individual with a strong interest in technology and problem-solving. Aspiring software developer currently building a strong foundation in digital skills through the CAPACITI AI Skills Accelerator program. Eager to learn, grow and contribute to innovative solutions while gaining practical experience in AI tools, content creation and data analysis.

CURRENT LEARNING – AI SKILLS ACCELERATOR BY CAPACITI

A 5-day intensive boot camp designed to make me AI-literate and boost workplace productivity using leading AI tools. I am gaining practical, in-demand digital skills and earning the Google AI Essentials Certificate.

SKILLS I AM GAINING

- **Prompt Engineering** – Writing precise instructions to get accurate, high-quality AI outputs.
- **Content Generation** – Creating professional emails, reports, social media posts and articles using AI.
- **Data Analysis & Summarization** – Turning long documents and spreadsheets into insights.
- **AI Tool Fluency** – Hands-on practice with tools like ChatGPT, Google Gemini and Midjourney.
- **Certification** – Earning the Google AI Essentials Certificate (globally recognized).

CAREER PATHWAYS THIS CAN LEAD TO

- **Junior Content Creator / Social Media Assistant**
- **Data Entry & Administrative Assistant**
- **Customer Support Representative**
- **Virtual Assistant**
- **Sales / Lead Generation Assistant**

This program is a stepping stone towards my long-term goal of becoming a software developer through CAPACITI's advanced 12-month AI and software development programs.
